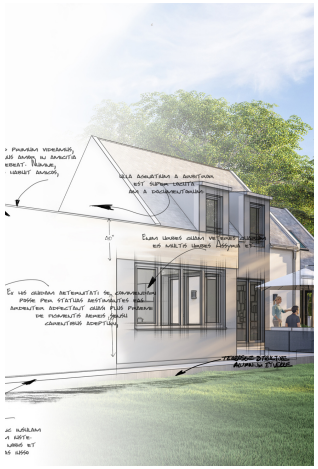
Do you have an artist, architect, or programmer in your family? Or maybe you've got one who loves to take things apart and put them back together again? Either way, Tech Camp is the perfect learning tool for your technology-inclined youngster!

Designed specifically for kids, this program makes learning about technology topics simple and fun. Through engaging activities, your child will learn about the basics of 3d design and drones while developing critical thinking skills.

And because it's designed specifically for kids, Tech Camp is the perfect way to get your little one started on a lifetime of learning. So why wait? Enroll your child today and let them discover the exciting world of technology!

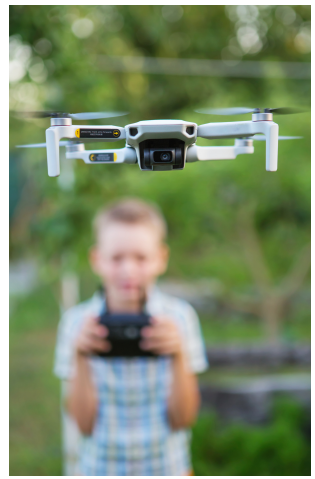


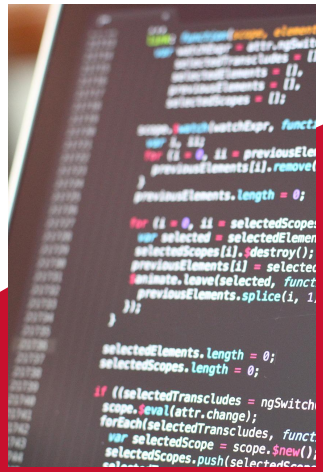
3D Design

3D design is a great way to encourage creativity and teamwork. Your child will use Sketchup to explore the basics of 3D modeling, including creating and manipulating 3D shapes, textures, and lighting. It's also a perfect opportunity to teach them the importance of following instructions and paying attention to detail.

Drone Discovery

Drones are a great way to teach kids about programming, aviation, and innovation. Our licensed instructor will guide your child through the process, teaching them how to control, program, and maneuver the drone through obstacle courses.





Coding

Your child will learn to code as it is integrated throughout the 3D Design and Drone sessions. They'll have a blast creating their flights and designs, and you'll be amazed at how quickly they progress.

Tech Camp 2023

June 19-23

July 17-21

Rising 3rd-7th Graders

Cost

3D Design	$150
Drone Discovery	$150
3D Design & Drone Discovery	$289

Campers who attend Wesleyan Christian Academy will receive an ongoing subscription to the 3D Sketchup software while at WCA. Campers will also have the opportunity to take the FAA TRUST (The Recreational UAS Safety Test) to earn a certificate that will allow them to fly drones recreationally.

Extended Care

7:30 - 9 AM	$40
8 - 9 AM	$30
4 - 5 PM	$30
4 - 5:30 PM	$40

Schedule

3D Design	9 AM - 12 PM
Drone Discovery	1 PM - 4 PM
3D Design & Drone Discovery	9 AM - 4 PM

Campers are given a snack break during each camp session and may bring a snack from home. Campers staying through the lunch hour will need to bring a packed lunch.
