WESLEYAN CHRISTIAN ACADEMY

SCOIR AT WESLEYAN

A quick guide for students and families

What is Scoir?

Scoir (pronounced *score*) is a college and career planning platform. It brings exploration, college lists, planning tools, messages, assignments, and selected application tasks into one organized place. Available features may vary based on a school's Scoir setup.

For Students

- Build and maintain a profile that highlights interests, activities, achievements, and academic information.
- Explore colleges, programs, majors, and career possibilities that fit your goals and strengths.
- Follow colleges, organize your list, and compare important factors such as academics, setting, and cost.
- Receive messages, assignments, visit information, and planning resources from your counseling team.
- Complete document, recommendation, or application-related steps when directed by Wesleyan's counseling team.

For Parents & Guardians

- Link a parent or guardian account to your student and view the information available through your connected account.
- See your student's college list and preferences, then research or suggest colleges for consideration.
- Review college profiles and financial estimates to support thoughtful family conversations about fit and affordability.
- Receive messages, notifications, and assignments related to your student's planning process.
- Complete family actions, such as an Early Decision agreement, when requested and appropriate.

A tool for wise planning

At Wesleyan, Scoir supports the larger College & Calling conversation. It does not replace prayerful discernment, family dialogue, careful research, or a personal relationship with Academic & College Counseling.

GETTING STARTED

Students

1. **Use Wesleyan's invitation**
   Register through the email invitation or access instructions provided by Academic & College Counseling.
2. **Check your profile**
   Review your personal and academic information, then add activities, achievements, interests, and a brief bio.
3. **Explore with purpose**
   Use Discover to research colleges and careers. Follow schools that merit a closer look.
4. **Keep your list current**
   Update college preferences and list status as your thinking changes throughout high school.
5. **Watch for next steps**
   Review messages and assignments. Confirm Wesleyan's process before requesting documents or recommendations.

Parents & Guardians

1. **Accept the invitation**
   Create your own account from the invitation sent by your student or Wesleyan, then link it to your student.
2. **Review, do not rewrite**
   The connected parent view helps you understand your student's profile and list; the student remains responsible for maintaining their information.
3. **Research together**
   Explore colleges, compare costs, and suggest possibilities while keeping the student's interests and goals central.
4. **Discuss affordability early**
   Use estimates as a starting point, then verify current costs and aid directly with each college.
5. **Respond when needed**
   Watch for counselor messages, assignments, and any family signature requests.

Use Scoir Wisely

- Keep profile information accurate and protect account credentials.
- Treat match tools, scattergrams, cost estimates, and recommendations as planning information - not guarantees.
- Verify deadlines, requirements, costs, and application instructions with the college and your Wesleyan counselor.
- Ask before creating another account; duplicate accounts can complicate access and records.

WESLEYAN-SPECIFIC QUESTIONS

For account access, transcript and recommendation procedures, application workflows, or questions about what your grade level should complete, contact Wesleyan Academic & College Counseling.
